This study seeks to assess whether continuity of overall, primary, and specialty care protects patients with obesity-associated chronic conditions from potentially preventable emergency department and hospital utilization, the impact of disparities on continuity and major health outcomes, and the health system characteristics associated with highest continuity and best

health outcomes for this vulnerable population. Principal Investigator, 5% effort, \$75,000, January 1, 2019 – December 31, 2019.

2. CMS Health Care Innovation Award, “Project SAFEMED: Improving Safety and Adherence For Effective Medication Use”. This quasi-experimental pragmatic clinical trial is evaluating the effectiveness of an innovative care transitions program employing intensive medication management and care coordination in improving medication adherence, decreasing hospitalizations, and reducing overall healthcare costs care for patients with multiple chronic conditions, polypharmacy, and high inpatient utilization. Project Director, 40% effort, \$2,977,865, July 1, 2012 – June 30, 2015.
3. Tennessee Department of Health, Minority Health Initiative, “M-Power Program”. This program is a collaborative diabetes disparity reduction initiative based on evidence of successful translation of the National Diabetes Prevention Program’s (DPP) intensive lifestyle intervention to the community setting. This program is designed to prevent and delay the onset of diabetes in 150 individuals with pre-diabetes residing in disadvantaged communities. Co-PIs –Brandy Franklin, PhD and Jill Nault, MSSW, Bailey Co-I, 5% effort, \$100,000, May 1, 2013 – April 30, 2014
4. Agency for Health Research and Quality, U.S. Department of Health and Human Services (AHRQ/HHS), “BELT” Blacks and Exacerbations on LABA vs. Tiotropium. The grant supports a primary care clinic-based randomized clinical trial of alternative asthma therapies in African-Americans with asthma and a sub-study of the impact of health literacy on exacerbations. Co-Investigator and UTHSC Site PI, 10% effort, 11/15/11 – 12/31/12. Subcontract to UTHSC for \$119,933
5. BlueCross BlueShield of Tennessee, “Tennessee Physician Practice Improvement Preferences Survey”. This survey is designed to assess challenges faced by primary care providers in Tennessee in their efforts to improve care delivery for their patients, level of readiness to participate in organized quality improvement (QI) activities, and preferences for types of QI support. This information will be used to support regional efforts to develop the ambulatory QI supports most needed by primary care providers throughout Tennessee. Principal Investigator, 5% effort, 7/1/11 – 12/31/11. Grant to UTHSC for \$20,000.
6. Agency for Health Research and Quality, U.S. Department of Health and Human Services (AHRQ/HHS). Chartered Value Exchange (CVE) designation awarded to Healthy Memphis Common Table. The CVE award supported the Healthy Memphis Data Center led by Dr. Bailey by providing Medicare performance data gauging how well physicians treat patients, technical assistance, information exchange, participation in national meetings, research tools, access to experts, and an ongoing private web-based knowledge management system. The award supports regional reporting of health care quality, price and efficiency information and consumer education regarding quality and value in health care. Project Director, Denise Bollheimer, 02/28/08 – 12/31/11. No direct funding provided.
7. QSource, Tennessee’s Quality Improvement Organization, “Hospital/ED Overutilization Mapping Project”. The goal of this contract is to describe geographic patterns of healthcare utilization with initial focus on hospital readmissions and ED utilization for five regions across the state of Tennessee using Medicare data. The contract supports the Healthy Memphis Data Center staff person Jill Nault in public reporting of health care quality and efficiency information and engaging community stakeholders in shared accountability for population health outcomes and healthcare expenditures. Project Lead, Jill Nault, 50% effort. Original contract with UTHSC for \$22,725 (1/1/11 – 7/30/11), contract renewal for \$28,020 (7/1/11 – 7/31/12).

8. The Robert Wood Johnson Foundation (RWJF), “Memphis Regional Quality Strategy” under RWJF Aligning Forces for Quality (AF4Q) program. The goal of this grant is to expand the Memphis AF4Q initiative to involve hospitals and nurses in a community-wide quality improvement effort, concentrating on improving care for the ambulatory care-sensitive chronic diseases, care coordination, patient-centered care and care for minority populations. The grant supports the Healthy Memphis Data Center led by Dr. Bailey in developing a data-driven regional quality strategy and action plan for Memphis and in public reporting of health care quality and disparities information. Principal Investigator (6/1/08 – 10/31/10), Director of Healthy Memphis Data Center, 25% effort. \$999,875 awarded to Healthy Memphis Common Table, June 1, 2008 – May 31, 2011. Subcontract with UTHSC for \$312,881.
9. Mid-South eHealth Alliance. Contract to provide technical assistance with grant preparation for the Beacon Community Cooperative Agreement Program including assistance with collection of relevant data, review of the relevant medical and health services research literature, and management of the grant preparation process. Director, Healthy Memphis Data Center, 25% effort, January 1, 2010 – January 31, 2010. Contract with UTHSC for \$6,500.
10. Vanderbilt University Medical Center Subcontract, “eHealth Information Exchange Impact on Disease Specific Outcomes.” This study, funded by and in collaboration with Vanderbilt University Medical Center (VUMC) with the support of the State of Tennessee and the Agency for Health Research and Quality, seeks to evaluate the impact of the Midsouth eHealth Alliance (MSeHA) Health Information Exchange (HIE) on disease specific outcomes. The research will determine whether the Data Exchange has reduced unnecessary duplicate testing and hospitalization and overall healthcare costs for emergency evaluation and treatment of chest, back and abdominal pain and headache. Principal Investigator, 25% effort. \$254,073 awarded to UTHSC, August 1, 2006 – September 30, 2010.
11. Health Improvement Collaborative of Greater Cincinnati. Contract to provide on-going guidance and consultation, and to assist with the creation of a public report of quality data for primary care practices in the 14 county region using data from the Generating Medicare Physician Quality Measurement Results (GEM) project, provided through the Centers for Medicare and Medicaid Services. Principal Investigator, 5% effort, September 30, 2009 – February 1, 2010. Contract with UTHSC for \$15,000.
12. Merck Alliance to Reduce Disparities in Diabetes Care, “Diabetes for Life” (D4L). The goal of this grant is to establish and institutionalize a coordinated church and clinic-based diabetes program through the Memphis Healthy Churches program of Christ Community Health Services, that will help control or reduce associated conditions or complications from diabetes, mainly heart and kidney disease, among the target African American population. Consultant, 15% effort, February 1, 2009 – June 30, 2009. Grant of \$1,934,248 awarded to Healthy Memphis Common Table, February 1, 2009 – January 31, 2014. Subcontract with UTHSC for \$20,000.
13. UTHSC subcontract with Healthy Memphis Common Table for Evaluation Support/Physician Outreach Activities for the Aligning Forces for Quality: Memphis Regional Market Project. The goal of this grant is to identify, develop and manage relationships with key physicians, physician groups, and other organizations to serve as the network for engaging physicians in the project. Director of Physician Outreach, 15% effort, \$46,726.65, October 1, 2007 – June 30, 2009.

14. The Robert Wood Johnson Foundation (RWJF), “Memphis Regional Market Pilot Initiative” under RWJF program *Aligning Forces for Quality: The Regional Market Project*. The goal of this grant is to engage consumers and providers in efforts to improve quality of ambulatory care in the Memphis region. This initiative seeks to: 1) help individuals take more control of their own health and healthcare, 2) develop a sustainable infrastructure to support and improve physician care management processes, and prepare physicians for public reporting and pay-for-performance, and 3) create a reporting system that guides individual physician, practice and community-wide quality improvement efforts and helps consumers select and work in a closer partnership with their physicians. Member Leadership Team, Co-Chair of Performance Measurement/Public Reporting Steering Committee. \$605,827 awarded to Healthy Memphis Common Table, July 1, 2006 – June 30, 2009.
15. Novo Nordisk, Inc., “Healthy Memphis Data Center,” The goal of this grant is to report diabetes and diabetes quality of care trends for geographic areas in the Shelby County area in order to support health and healthcare improvement initiatives throughout the Mid-South by using hard data to track the progress in achieving measurable health goals. Principal Investigator, \$30,000, March 8, 2006 –December 31, 2008.
16. Memphis Managed Care Corporation, “Memphis Advanced Medical Home (AMH) Demonstration Project.” The goal of this grant is to assess the impact of health plan support for AMH infrastructure development on quality of care, hospital and emergency department (ED) use, and overall costs of care. Principal Investigator. \$30,000 for Project Director committed. Proposal for additional \$20,000 for evaluation component under consideration, September 1, 2006 – August 31, 2007
17. State of Tennessee, TennCare Bureau, “TennCare Disenrollment Impact Study,” The objectives of this study are to determine: 1) the ability of TennCare disenrollees to obtain other health insurance – degree to which the “crowd out” is reversed, and 2) the short-term impact of the loss of TennCare coverage on use of the safety net system, access to health care services, health status, out of pocket healthcare costs, personal and family finances, and economic productivity. Co-investigator, \$157,620, January 1, 2006 – December 31, 2007.
18. Tennessee Department of Health, Bureau of TennCare, “Healthy Memphis Data Center Project and TennCare Quality and Outcomes Research,” The objectives of this study are to perform: 1) focused healthcare quality and outcome reporting program using encounter data of Tennessee Medicaid and TennCare enrollees, 2) identify patterns of inappropriate or medically unnecessary health care and drug utilization, focusing particularly on care for common chronic diseases, preventive care and acute or emergency care, and 3) assist in the design, implementation and oversight of additional focused health services research projects. Principal Investigator, No-cost contract, January 2, 2005 - June 30, 2008.
19. The Urban Child Institute, “Obesity and Diabetes Initiative Data and Evaluation Support Grant,” The goal of this grant is to provide scientific evidence regarding best practices and models for collaborative efforts to reverse the obesity epidemic in the Mid-South, to assist in establishing measurable outcomes and data collection strategies for the Initiative, and to facilitate collecting baseline benchmark data, establishing intervention outcome goals, monitoring progress toward goals, and documenting outcomes of interventions, Principal Investigator, \$100,000, July 1, 2004 – April 2006
20. TennCare Quality Assurance and Outcomes Research, State of Tennessee, Bureau of TennCare, Medicaid Drug Utilization Review (DUR) Contract. The goal of this contract is to provide data analysis of Medicaid health services utilization patterns

and trends, quality monitoring and reporting, and retrospective drug utilization review. Medical Review Officer, \$2,047,143, July 1, 2001 – June 30, 2004

21. Novartis Pharmaceuticals, Unrestricted Educational Grant. The goal of this grant is to analyze, summarize and disseminate relevant data regarding the diabetes and obesity epidemics in Tennessee and trends in diabetes health care utilization patterns for people living with diabetes in Tennessee, Principal Investigator, \$10,000, July 1, 2003 – June 2004
22. American Heart Association, Established Investigator Grant, "Quality of Care for Hypertension and Risk Factors for Stroke and Cardiovascular Events under Medicaid Managed Care". Principal Investigator, \$299,177, January 2000 - December 31, 2003
23. Infectious Disease Society of America for the Health Resources and Services Administration, "Impact of the Ryan-White Care Act on Quality and Outcomes of Care for HIV and AIDS in a Statewide Medicaid Managed Care Program, Principal Investigator, \$99,873, October 1, 2000 - August 31, 2002, 25% effort
24. State of Tennessee, Department of Finance and Administration, Bureau of TennCare, Contract for "Evaluating the Quality of Care Under the TennCare Partners Program". Consultant, \$425,000, July 1998 - July 2001
25. State of Tennessee, Department of Finance and Administration, Bureau of TennCare, Medicaid Drug Utilization Review (DUR) Contract for "TennCare Quality Assurance and Outcomes Research," Medical Review Officer, 1995 - 2001, \$1,871,242, July 1, 1998 - June 30, 2001, 31% effort
26. Subcontract with Tennessee Opportunity Programs, Inc. (TOPS) for the Robert Wood Johnson Foundation, HIV/AIDS Centers of Excellence Project, Evaluation Implementation Grant, Principal Investigator. Funded for \$125,384 for July 1, 1998 - June 30, 2000
27. Subcontract with Tennessee Opportunity Programs, Inc. (TOPS) for the Robert Wood Johnson Foundation, HIV/AIDS Centers of Excellence Project, Evaluation Planning Grant, Principal Investigator. Funded for \$40,000 for July 1, 1997 - June 30, 1998.
28. American Cancer Society, Institutional Research Grant. "Breast Cancer Prevention under Medicaid Managed Care," Principal Investigator, \$10,000, June 30, 1997 - July 31, 1998
29. University of Tennessee Medical Group, Physician's Research Grant. "Effectiveness of Diabetes Management under Medicaid Managed Care," Co-Principal Investigator, \$39,800, January 1, 1997 - November 30, 1998
30. USPHS Contract N01-HC-45137, Activity Counseling Trial (ACT), Clinical Co-Investigator, \$202,486, September 30, 1994 - September 29, 2000, 5% effort
