

Center for Health System Improvement Affiliated Faculty and Staff

The mission of the Center for Health System Improvement is to improve health and health care in the Mid-South region by:

- *Supporting interdisciplinary health systems research,*
- *Evaluating innovative regional health and health care quality improvement efforts,*
- *Championing patient-centered outcomes research, and*
- *Promoting sustainable community-driven health system change.*

The Center's Affiliated Faculty and Staff are comprised of professionals from many different UTHSC colleges, regional universities, and other institutions that are working to contribute to the Center's mission. We welcome your joining us to contribute your talents to our common goals.

Benefits

- √ Access to information on funding opportunities, databases, and tools to support health system improvement research
- √ Sharing databases for your research and publications
- √ Having your work highlighted on the Center's website
- √ Collaboration with multidisciplinary faculty from UTHSC, University of Memphis, Rhodes College, and other institutions

Responsibilities

- √ Participate in at least three monthly (first Wednesday) Health System Research Conferences per year
- √ Share research ideas and opportunities
- √ Mentor junior faculty, fellows, residents, and students in health systems improvement research
- √ Participate in collaborative research activities with other Affiliate Faculty and Staff

How to Join Us

- Hold a faculty or staff appointment at one of the Center's collaborating institutions.
- Complete the application and submit it via email to chsi@uthsc.edu.
