1. Call to order by President Cooper: 4:02 PM
 2. President Cooper introduced the Associate Director of the UTHSC Library, Dr. Randall Watts. Dr. Watts presented a discussion of best practices in utilization of copyrighted materials by educators. [Mediasite recording] Dr. Watts had a disclaimer. He is not a lawyer so he is not giving a legal opinion. He stated that federal government documents cannot be copyrighted. If research is done in a government laboratory such as VA or NIH, the journal publishing reports cannot profit from copyright protection. Copyrights are for 123 years or the life of the author plus 70 years. He gave 5 options to use materials. I. Don't use it. 2. Use a link to articles, and don't upload the article (pdf). The same is true of interlibrary loan material. 3. Use the doi or base url in the link. 4. You may use and copy any open source material. II. Use prelicensed resources such as Clinical Key. III. Get permission to use the article. IV. Use in face to face class meetings. This is covered under the federal Teach Act. V. Fair use. Fair use is complicated by many legal opinions and court decisions. Dr. Watts gave his connection information in the library which you can find in the Mediasite recording above.
