

MS Medicaid Registration

The Affordable Care Act has required that all providers, including residents, register with Medicaid or they will not pay for orders or prescriptions. We have worked out the process with MS Medicaid. You will need to complete the online version below. You are registering as a referring physician only.

- On the Request Information page of the online application, choose the Enrollment Type: Ordering, Referring, Prescribing
- Choose the appropriate taxonomy
- When it asks for your license number you will put UTRESIDENT (IN ALL CAPS).
- You will leave the DEA number section blank.
- When it asks for the servicing address you will put the GME address listed at the bottom of this page, but you should list your program phone and fax number.
- When you get to the Supporting/Documentation/Attachments and Fees page of the online application, you are asked to upload a copy of your license which you don't have so you may submit a copy of your NPI verification.
- On the Agreement page of the online application, there is a Certification Statement, and the enrolling provider must accept and electronically sign.
- The application must then be submitted.

The Provider Portal located at MESA Portal for Providers - Mississippi Division of Medicaid (ms.gov)
<https://medicaid.ms.gov/medicaid-portal-for-providers/>

GME Office 920 Madison Ave, Suite 447 Memphis, TN 38163

- The attachments need to be PDF
- The link does not work well at the VA
